

Kat Brown

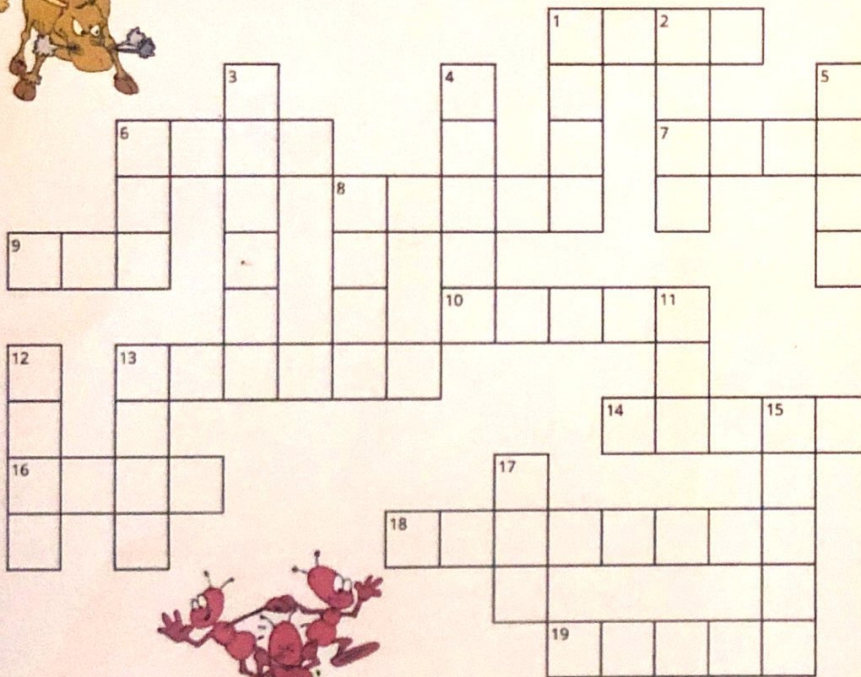

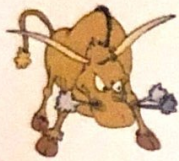

Kat heard about Foster Army years ago when it was at a different location and she saw literature at the original thrift store. Her hobbies are drawing, bunco, travel, music, and animals. She has loved animals since she was a young child and has always had a special connection with animals. She has rescued dozens of animals on her own, and she is happy to be with like-minded people at Foster Army. She has cared for up to 10 pets at one time and currently has one cat named Sweet Pea.

Susan Ewald

Susan moved to Riverside in 1974. She lives in an historic 115 year old home in downtown Riverside. Susan and her husband Mel are both retired. Her mom introduced her to the original Foster Army thrift store and she has been coming to the thrift store ever since. Up until very recently, she had a dog named Ranger. Unfortunately, he developed a serious heart condition and she had to tell him goodbye. This happened three days before she had her volunteer orientation with FAAR, and volunteering has helped Susan during this difficult time. When she thinks of all of the animals she is helping, it helps replace the tears with smiles.

Name that Animal!

Down

- 1. male deer
- 2. young sheep
- 3. group of fish
- 4. group of monkeys
- 5. group of antelope
- 6. group of whales

- 10 group of lions
- 13 group of ants
- 14 female donkey
- 16 young pony
- 18 male horse
- 19 male goat

Christine Pan

Christine found out about Foster Army through Google. She needed volunteering hours for school so she went online searching for animal shelters &

found FAAR! Christine loves arts & crafts and creating digital illustrations and turning them into button pins. She also makes earrings and paper craft models. Currently, she has a shelf full of LEGOs and other models of her favorite characters and spacecraft. She is always looking to expand her collection. Just ask her about rockets, and she will talk for hours! She has a wonderful cat named Gingerpie.

We are a foster-based 501(c)3 animal welfare non-profit organization that was founded on the belief that every treatable animal deserves a chance at life and a loving forever home. We rescue and treat vulnerable, at-risk companion animals from the local shelter, with a special focus on ill, injured, senior, and special needs animals.
